

STAGO Open House Workshop Days 18 – 20 March 2010

In a relaxed workshop atmosphere, we will cover the following topics over the three days.

- Introduction of all STAGO machines and specific applications of the various models
- Operation and troubleshooting in daily use
- Work together on further improving our products and look at new product possibilities – bring your ideas and suggestions to the table!

In addition, a visit to the new Porsche Museum and Daimler Museum in Stuttgart is also planned. We will be serving Swabian speciality dishes, so you won't go hungry! We recommend that you spend two days with us – we can help with hotel bookings if required.
